ABOUT US

At Nanak Forex Trading Academy, we believe that successful trading isn't about luck — it's about skill, strategy, and structure. Located in the heart of Mumbai, our academy was established with a clear goal: to transform beginners into confident, independent traders through real-world education and mentorship. We specialize in teaching Smart Money Concepts, ICT-based trading techniques, Price Action, Market Structure, and Live Market Execution. Our curriculum is designed by experienced traders who have not only mastered the forex markets but are passionate about teaching others to do the same. Our academy blends theory with live practice, offering lifetime mentorship, real-time market analysis, and ongoing Telegram support to help students navigate challenges even after course completion. We focus on building your mindset, technical skills, and risk management strategies so you can trade with consistency and confidence.

At Nanak Forex, we don't just teach trading—we build traders.
